

Border Terrier - Pet Strip

This little terrier is the perfect breed to learn the art of handstripping on. With minimal pattern lines and a cute little "otter-like" head this dog is simply irresistible. Learn how to bring out the beautiful texture and vibrant colors in our pet trims with pet stripping. Pet stripping consists of the combination of handstripping the body (or jacket), head, ears and tail along with thinning shear work on the sensitive areas which are the throat, rear and belly. This is a skill that will put you a cut above the rest.
